## ABOUT EVOK

**Evok, lifestyles designers, was established in 2014 by its three co-founders. Owned by Pierre Bastid, it was conceived and developed by Romain Yzerman and Emmanuel Sauvage, its Managing Director.**

Each destination offers a different variety of luxury: classic French for Nolinski and Restaurant du Palais Royal, exclusive for Hameau de la Volière and Cour des Vosges, casual luxury for Brach, and unconventional quirky for Sinner.

A lifestyle for a style of luxury matching our guests' different aspirations and wide range of desires. A common thread that defines each place in the group. A collection that develops beyond boundaries. Different projects that enrich the others.

Immerse yourself in the atmosphere of a city or neighborhood. Sense its every vibration. Exploring its traditions and style. That is the Evok spirit. We start afresh to kindle new emotions. Starting from scratch to create a new emotion. Finding a new place, reviving it, giving it a new life with designers such as Starck, Auer, Deniot, Tollemer and Lecoadic & Scotto, among others.

Each place has its own ambition, atmosphere and lifestyle inspired by its surroundings.

Today, Evok employs over 600 people across 6 hotels, 4 restaurants, a sports club, different spas and more. Its international expansion will begin in Italy in late 2021 with the opening of Nolinski Venice, followed by Brach Madrid and Brach Rome, set to open in 2022/2023.
